## Summary

As a cybersecurity professional and ethical hacker with a passion for network security, I am dedicated to staying ahead of the constantly evolving threat landscape. In my role as a Networking and Network Security Engineer at Raksha Technologies, I am responsible for designing, implementing, and maintaining secure networks for our clients.

I am skilled in a variety of networking and security tools and technologies, including firewalls, intrusion detection/prevention systems, VPNs, and vulnerability scanners. I am also experienced in conducting security assessments and penetration testing to identify potential vulnerabilities and recommend mitigation strategies.

## Experience

### Technical Support Engineer

Raksha Technologies

Jan 2023 - Present (1 year 1 month)

HCL BigFix

- Deployed patches, updates, and configurations across large-scale networks, ensuring system compliance.
- Collaborated with IT teams to optimize endpoint management, resulting in enhanced system efficiency.
- Provided technical support and troubleshooting for BigFix-related issues.

IBM MaaS360

- Implemented security policies and configurations for mobile devices, ensuring compliance with corporate standards.
- Collaborated with cross-functional teams to integrate MaaS360 into the overall IT infrastructure.
- Provided technical support and troubleshooting for MaaS360-related issues, contributing to seamless mobile device operations.

## Education

### SNS College of Technology

Bachelor of Engineering - BE, Computer Science

2019 - 2023

## Licenses & Certifications

### Ethical Hacking From Scratch - Udemy

UC-a97cd099-a86a-4756-825d-47cdd33bf21b

### Network Protocol Analysis Using Wireshark - Udemy

UC-159076b2-00b3-45bf-81f5-80aab5ae1bd3
